

### Team MVP's – April Ice Breaker

Everyone in the team probably has a strength, excels at something unique, picks up the slack in certain areas. Without them the team would suffer. *Think about the team member that is a good cook and often cooks the meals. What about the team member that is good at checking in on others when someone appears off?*

Take a few minutes and celebrate those strengths. Every team member is important, so make sure each team member is celebrated!
